

Recycle Cans, Foil and Foil Trays

WHAT:

- Steel/Tin Cans
- Aluminum Cans
- Aluminum Foil
- Foil Trays
- Metal lids

For example*:

aluminum trays, canning-jar domes, canning-jar lids, canning-jar rings, cat-food cans, cookie tins, dog-food cans, domes for canning jars, foil yogurt-cup lids, foil yogurt-tub lids, Keurig K-cup foil lids, license plates, popcorn tins, metal base of Pringle's can, soup cans, steel lids, tin foil, tuna cans, yogurt-cup lids, yogurt-tub lid

But NO:

- NO aerosol cans
- NO gas cylinders (propane, helium, oxygen, etc)
- NO paint cans
- NO propane tanks
- NO scrap metal
- NO wire hangers

HOW:

- Please rinse items. Note: foil doesn't have to be perfectly clean, but shouldn't have pieces of food remaining on it.
- It helps if you remove labels, but its not absolutely necessary.
- It helps if you flatten as much as possible, but it is not absolutely necessary.
