- Mr. Marshall and Mr. Olsen reviewed standards for street width. Their summary: State A has a minimum paved width of 20’ with most of the road wider than that. If we apply the ‘Local Agency Programs Guidelines for Geometrics on Local Agency Projects’ to this street it would require the road to be 18’ wide with 2’ gravel shoulders on both sides, for a total width of 22’. This street would meet these standards now.
